

Services

Since 2005, we've been providing the tools, the technologies and the services that our clients need to be successful in the highly competitive broadcast production and postproduction business. We will help plan your project, present you with a working script, arrange and carry out your interviews, film, post-produce and uplink your video. We can help you with

- * Renting out the best equipment
- * Hiring skilled and experienced crew
- * Production and logistics
- * Transfers and conversions
- * Video encoding
- * Media replication
- * Non Linear video editing
